Through the PAHC grant program, awarded funds were used to provide the necessary security enhancements to improve the overall safety of the organizations. Some of the specific funding expenditures served to cover the cost of security personnel, closed-circuit cameras, training, door hardening, and improved lighting. In addition, and based on the quarterly submission of performance measure data, awarded sub-recipients reported the following outcomes in FY 2024:[4]

[4] It is important to note that performance measure data may reflect underreported figures due to the date in which the data was extracted from the Office's Grants Management System (GMS) in order to submit this report on time. For this reason, data should be extracted 45 days after the end of the quarter to capture final figures.

- 76,458 people felt safer as a result of the security enhancements
- 3,260 staff received training on security enhancements
- 2,213 equipment purchased
- 1,186 security enhancements
- 811 safety assessment surveys conducted
- 361 trainings

The purpose of this program is to prevent incidents of family violence, domestic violence, and dating violence and to meet the needs of all victims and their dependents, including those in underserved communities. Funds are used to assist sub-recipients in providing services to victims through a 24-hour hotline, safe accommodations, therapeutic counseling, legal counseling, and court accompaniment. Funds are also used to support community awareness activities and abuse

intervention programs. These services are provided through a network of community-based domestic violence programs and are available in every jurisdiction statewide.

At the local level, these programs ensure that victims have access to needed services onsite and also provide victims with linkages to other community-based services as needed. The provision of services at the local level also fosters a coordinated community approach to serving domestic violence victims, including partnerships with law enforcement, courts, hospitals, local departments of social services, and other related support services.

In addition, all DOMV/FVPS-funded domestic violence programs must provide specialized services that reflect an awareness of and sensitivity to the needs of underserved populations and implement their programs in accordance with State and federal regulations or guidelines. Unserved and underserved victim populations targeted for outreach and services include individuals with mental health and substance abuse issues; individuals with disabilities; those with limited English proficiency; immigrants; people in same-sex relationships; teens; military families; male victims; and individuals and families living in rural areas of the State where access to services may be limited.

In FY 2024, and through the DOMV/FVPS program, the Office awarded $5,498,800.00 to sub-recipients with comprehensive domestic violence programs (*as illustrated below*).[19] The awarded funds consisted of $3,089,772.00 in State general funds and $2,409,028.00 in federal FVPS funds.
